Gear drive system with close coupled motor

Refrigerant condensers

Options and accessories

Gear drive system with close coupled motor

Factory-installed and aligned, the close coupled motor gear drive system is a good option for **certain industrial applications**.

The gear drive is designed with a 2.0 service factor and construction including:

- Nickel-alloy steel shaft
- Case-hardened gears
- Self-lubrication
- Single piece iron housing

Want to benefit from a close coupled gear drive system on your cooling equipment? Ask your local BAC representative for more information.
