## Closed circuit cooling towers

## Options and accessories

### Water treatment solutions

For the Nexus<sup>®</sup> modular hybrid cooler we offer various water treatment solutions that will

- Save money
- Increase safety and hygiene
- Simplify operation
- Enhance sustainability

### Standard

- **DiamondClear<sup>®</sup> design with built in iPilot<sup>®</sup>** : Automatic bleed control system

## Traditional water treatment package

- **BCP NX 2:** Automatic dosing and bleed control package

## UV light system package

- **BCP NX 3 UV:** Automatic dosing with UV-lamp providing a  $60\text{mJ}/\text{cm}^2$  dosage and bleed control package

## Pre-treatment option

- **ZeRO 4 Nexus<sup>®</sup>**: Innovative reverse osmosis (RO) technology designed specifically for the NEXUS<sup>®</sup> modular hybrid cooler

**You want to use one of these solutions?** Download more information on the [benefits of each option](#) or [contact](#) your local BAC representative.
